More than **12,000** local students from **46** schools and youth groups who live within an hour of Portsmouth have sailed on PISCATAQUA since 2012 and here are just a few of their comments...

"When we took plankton from the water.... it made everybody feel like real scientists observing things in the ocean." Sixth grader

"I found that when we were raising the sail all together it was very meaningful because we all worked together as a team." Ninth grader

"I learned a lot about what lives in the rivers and the food chain. We got to navigate and see how deep the water was. I got to touch a lobster, hoist the sail and steer the boat." Seventh grader
